Date of Information: [REDACTED]

DOCUMENTARY

Available on loan from CIA Library are the following:

1. English and Spanish versions of a survey titled "Project NS Venezuela," dated 23 Feb 53, prepared by the Pennsalt Health, Agriculture, and Industrial Service. The project is essentially a plan for converting the nitrogen (N) of the air and the sulfur (S) of pyrites or other sulfur-bearing minerals into chemical products which, when properly coordinated with the other parts of the project, provide the keys to better agriculture, mining, hydrocarbon industry, new industries and defense.

2. The PHAIS survey entitled "Report of Agricultural Survey - Venezuela," completed in July 1954. It includes five nationwide soil analysis maps and photographs of several agricultural undertakings. [REDACTED] 25X1A2g

3. The PHAIS survey entitled "Report of Market for Ammonia in Industry in Venezuela," dated 20 Jul 54 and prepared for the Creole Petroleum Corp.

4. The PHAIS study titled "Project NS Venezuela: The Report on Step 'A' for Ammonia," dated 20 July 54; prepared in Spanish only for the Creole Petroleum Corp.
